

Glass and Mirror Cleaner

Revision: 19/03/2019

Page 1 from 1

Technical data

Basis	Alcohol based
Consistency	Fluid
Application temperature	5 °C → 25 °C

* These values may vary depending on environmental factors such as temperature, moisture, and type of substrates. ** This information relates to fully cured product.

Product description

Glass and Mirror Cleaner is a perfumed, non-smearing liquid cleaning agent that can be applied by spray and dries without leaving any streaks. The cleaner works effectively on most types of glass, mirrors, plastics and other hard surfaces.

Properties

- No streaks
- Fast drying
- Ready to use (no mixing required)
- Non-smearing
- Perfumed
- Multi-purpose use

Applications

- For removing most ingrained dirt, nicotine, grease, finger marks, dust, insects and other contaminants on most types of glass and mirrors.
- Cleaning of plastics and hard surfaces such as chrome and laminates.
- Can be used around the home, as in professional and industrial applications.

Packaging

Colour: colourless

Packaging: 1 L bottle, 25L drum

Shelf life

12 months in unopened packaging in a cool and dry storage place at temperatures between +5°C and +25°C.

Substrates

Substrates: glass, mirrors, plastics, laminated plate, ...

Nature: dirty.

Surface preparation: No pretreatment required.

Application method

Application method: Hold the bottle upright approximately 15 to 25 cm away from the surface to be cleaned. Spray lightly onto the surface. Dry immediately using a suitable clean soft absorbent and lint free cloth for a bright sparkling clear finish. This process can be repeated where necessary. Always work with a clean cloth to avoid contamination of the surface.

Health- and Safety Recommendations

Consult label and material safety data sheet for more information. Take the usual labour hygiene into account. Use only in well-ventilated areas. Wear eye protection. After contact with skin rinse immediately with soap and water. The user has to check if the product is suitable for the specific application.

Remarks

- It is recommended to do a compatibility test prior to application.
- Do not dilute product.

Remark: This technical data sheet replaces all previous versions. The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. Since the design, the quality of the substrate and processing conditions are beyond our control, no liability under this publication is accepted. In every case it is recommended to carry out preliminary experiments. Soudal reserves the right to modify products without prior notice.
