Technical data

Basis	Acetone
Consistency	Aerosol

* These values may vary depending on environmental factors such as temperature, moisture, and type of substrates. ** This information relates to fully cured product.

Product description

PU Foam Cleaner is a ready to use cleaning aerosol can to clean the Soudafoam Gun and remove uncured Soudal foams. PU Foam Cleaner is filled with HCFC- and CFC-free propellants which are not harmful for the ozon layer.

Health- and Safety Recommendations

Take the usual labour hygiene into account. Always wear gloves and goggles. Do not smoke. Consult label and material safety data sheet for more information. Dangerous. Respect the precautions for use.

Properties

- Removes not cured foam. Cleans tools such as gun.

Applications

- Cleaning of the gun after use.
- Cleaning of non-cured spilled foam.

Packaging

Colour: colourless

Packaging: 150 ml aerosol (net)

Shelf life

2 years in unopened packaging in a cool and dry storage place at temperatures between +5°C and +25°C.

Application method

Application method: External cleaning of the gun by making use of the red adapter. Clean the gun at the inside by turning the cleaner on the gun and pull the trigger several times, each with 10-15 seconds interval. Processing temperature: + 5 ° C to + 30 ° C. Immediately remove spilled foam with a foam cleaner, cured foam must be removed mechanically. Prior to using the cleaner, test whether surfaces are affected or not. Especially plastics and lacquer or paint layers can be sensitive to this.

Remark: This technical data sheet replaces all previous versions. The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. Since the design, the quality of the substrate and processing conditions are beyond our control, no liability under this publication is accepted. In every case it is recommended to carry out preliminary experiments. Soudal reserves the right to modify products without prior notice.
